

Response to FEC letter dated June 17, 2011 regarding the amended April Quarterly Report filed May 4, 2011 - FEC-727369.

The zero disclosures in receipts and disbursements that appeared on the April 15 report was in error due to a software problem when uploading the file. The error was not discovered until two weeks later. The receipts and disbursements on the amended report are what should have appeared on the April 15 filing. Our software provider, Aristotle, was contacted and the error corrected to allow the May 4 filing of the amended report.
